### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11 July 2007 has been entered.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the features from claim 28, (records the player), and (produces pictures on said interactive sign) must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. **Claims 13 and 22-28 are rejected under 35 U.S.C. 102(b) as being anticipated by Hedrick et al. (US 6,368,216 B1) herein after Hedrick.**

5. **Regarding claim 13;** Hedrick discloses a gaming machine system comprising: at least two gaming machines linked together, said gaming machines linked to an interactive sign; said interactive sign comprising an LCD screen; said LCD screen displaying a bonusing event that players can enter in; wherein players playing said linked gaming machines who enter said bonusing event compete against each other on said interactive sign, (8:15-39), machines link together, (8:56-63), LCD screen, (16:40-44), tournaments.

6. **Regarding claim 22;** Hedrick discloses a wherein said interactive sign comprises an LCD screen where a player enters bonus play and competition is between a player playing said gaming machine and said bonusing event on said interactive sign, (16:36-44).

7. **Regarding claim 23;** Hedrick discloses a system for alerting a player when they are playing on said interactive sign, (4:6-14), casino service notification.

8. **Regarding claim 24;** Hedrick discloses a wherein a player operates said bonusing event from any of said gaming machines linked to said interactive sign, (16:40-44).

9. **Regarding claim 25;** Hedrick discloses a wherein said bonusing event comprises a wheel which has various monetary denominations, (2:29-31).

10. **Regarding claim 27;** Hedrick discloses a wherein said bonusing event comprises a Ferris wheel that unloads coins when one of said linked gaming machines triggers said bonusing event, (23:27-47), the use of wheels as bonus instruments are disclosed and variations of them are a simple design choice.

11. **Regarding claim 28;** Hedrick discloses a video monitor located on said gaming machine which records the player playing the bonusing event and produces pictures on said interactive sign, (16:27-30).

***Claim Rejections - 35 USC § 103***

12. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

13. **Claim 26 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hedrick as applied above and in view of Dote (US 5,221,083).**

14. **Regarding claim 26;** Hedrick discloses all the features of claim 13 including the bonusing event played on the LCD display, but fails to mention a one on one game with a dealer. Dote discloses wherein a player plays one on one with a casino dealer on said LCD screen, (fig. 2). It would have been obvious to one of ordinary skill in the art at the time of the invention to create a linked blackjack tournament showing the dealer to make the game more attractive. This would give out predictable results.

***Response to Arguments***

15. Applicant's arguments with respect to claims 13 and 22-28 have been considered but are moot in view of the new ground(s) of rejection.

***Citation of Prior Art***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Witty et al (US 2003/0036429 A1), linked second display. LeMay et al (US

Art Unit: 3714

6,863,608 B1), incorporates player image in game play records. Anghelo et al (US 6,695,698 B1), Ferris wheel game.
